## 100 BENEFITS OF OZONE

1. Improves circulation
2. Boost vitality
3. Immune enhancer
4. Purifies skin
5. Oxygenates hemoglobin
6. Neutralizes acid
7. Cleanses liver
8. Kills parasites
9. Combats chronic fatigue syndrome
10. Corrects dizziness
11. Purifies blood
12. Relieves muscle aches
13. Builds muscle
14. Combat depress
15. Neutralizes stomach acid
16. Overcomes weakness
17. Corrects memory loss
18. Enhances immune system
19. Fights bronchial problems
20. Prevents tumors
21. Decomposes plague
22. Increases cellular activity
23. Boosts energy
24. Fight flu
25. Releases tension
26. Burns fat
27. Protects against stroke
28. Kills viruses
29. Purifies liver
30. Acts as a blood booster
31. Speeds healing
32. Improves digestion
33. Clears out brain fog
34. Cleans mucus
35. Improves heart function
36. Fights infection
37. Prevents sudden heart attack
38. Kills bacteria
39. Relieves angina
40. Heightens alertness
41. Prevents colds
42. Stops cancer cells
43. Neutralizes chronic hostility
44. Calms nerves
45. Speeds recovery
46. Oxidizes poisons
47. Breaks up cholesterol
48. Eliminates lactic acid
49. Speeds athletic recovery
50. Improves mental quickness
51. Strengthens immune system
52. Improves vitamin uptake
53. Kills candida
54. Improves mineral absorption
55. Destroys harmful microorganisms
56. Oxidizes moribund material
57. Balances acid/alkaline
58. Decreases stress
59. Improves amino acid utilization
60. Improves brain function
61. Oxygenates pancreas
62. Kills bad colon bacteria
63. Ignites carbohydrates
64. Help supplements work better
65. Burns off excess sugar
66. Enhances mood
67. Oxygenates spleen
68. Improves mental stability
69. Speeds up faulty metabolism
70. Clears out dirty fluids
71. Detoxifies the lymph system
72. Prevents degenerate diseases
73. Prevents premature aging
74. Prevents irregular heartbeat
75. Prevents gangrene
76. Prevents peripheral vascular disease
77. Fights herpes
78. Kills worms
79. Fights emphysema
80. Prevents angina pain
81. Prevents shingles
82. Prevents fever blister
83. Prevents asthma
84. Prevents Lyme disease
85. Fights parasitic infection
86. Fights fibromyalgia
87. Prevents and treats EBV
88. Prevents cluster headaches
89. Prevents cardiac arrhythmias
90. Disburses heavy metal toxicity
91. Prevents irradiates allergies
92. Neutralizes environmental toxins
93. Prevents Alzheimer's
94. Prevents constipation
95. Prevents nerve related diseases
96. Prevents gastro intestinal disorders
97. Prevents MS
98. Detoxifies every cell in the body
99. Treats animals
100. Cell energizer

## OXIDATIVE MEDICINE

Ozone is negatively charged, and bacteria, viruses, fungi and parasites are positively charged. For this reason, ozone (at low concentration) can kill 3500 times faster than chlorine. It is used to modulate, detox, sterilize, oxygenate and lower inflammation. Ozone has very low secondary effects and its distribution and activity is almost immediate, making it a very useful tool, depending on the use and type of application. Usually performed by mixing one liter of blood with 1000cc of ozone in a daily application through IV, rectal or topical means.
